

Driving Forward on Permitting and Siting

New England Restructuring Roundtable

Jeremy McDiarmid
June 14, 2024

Advanced Energy United

We are the association of businesses united in our mission to achieve 100% clean energy in America.

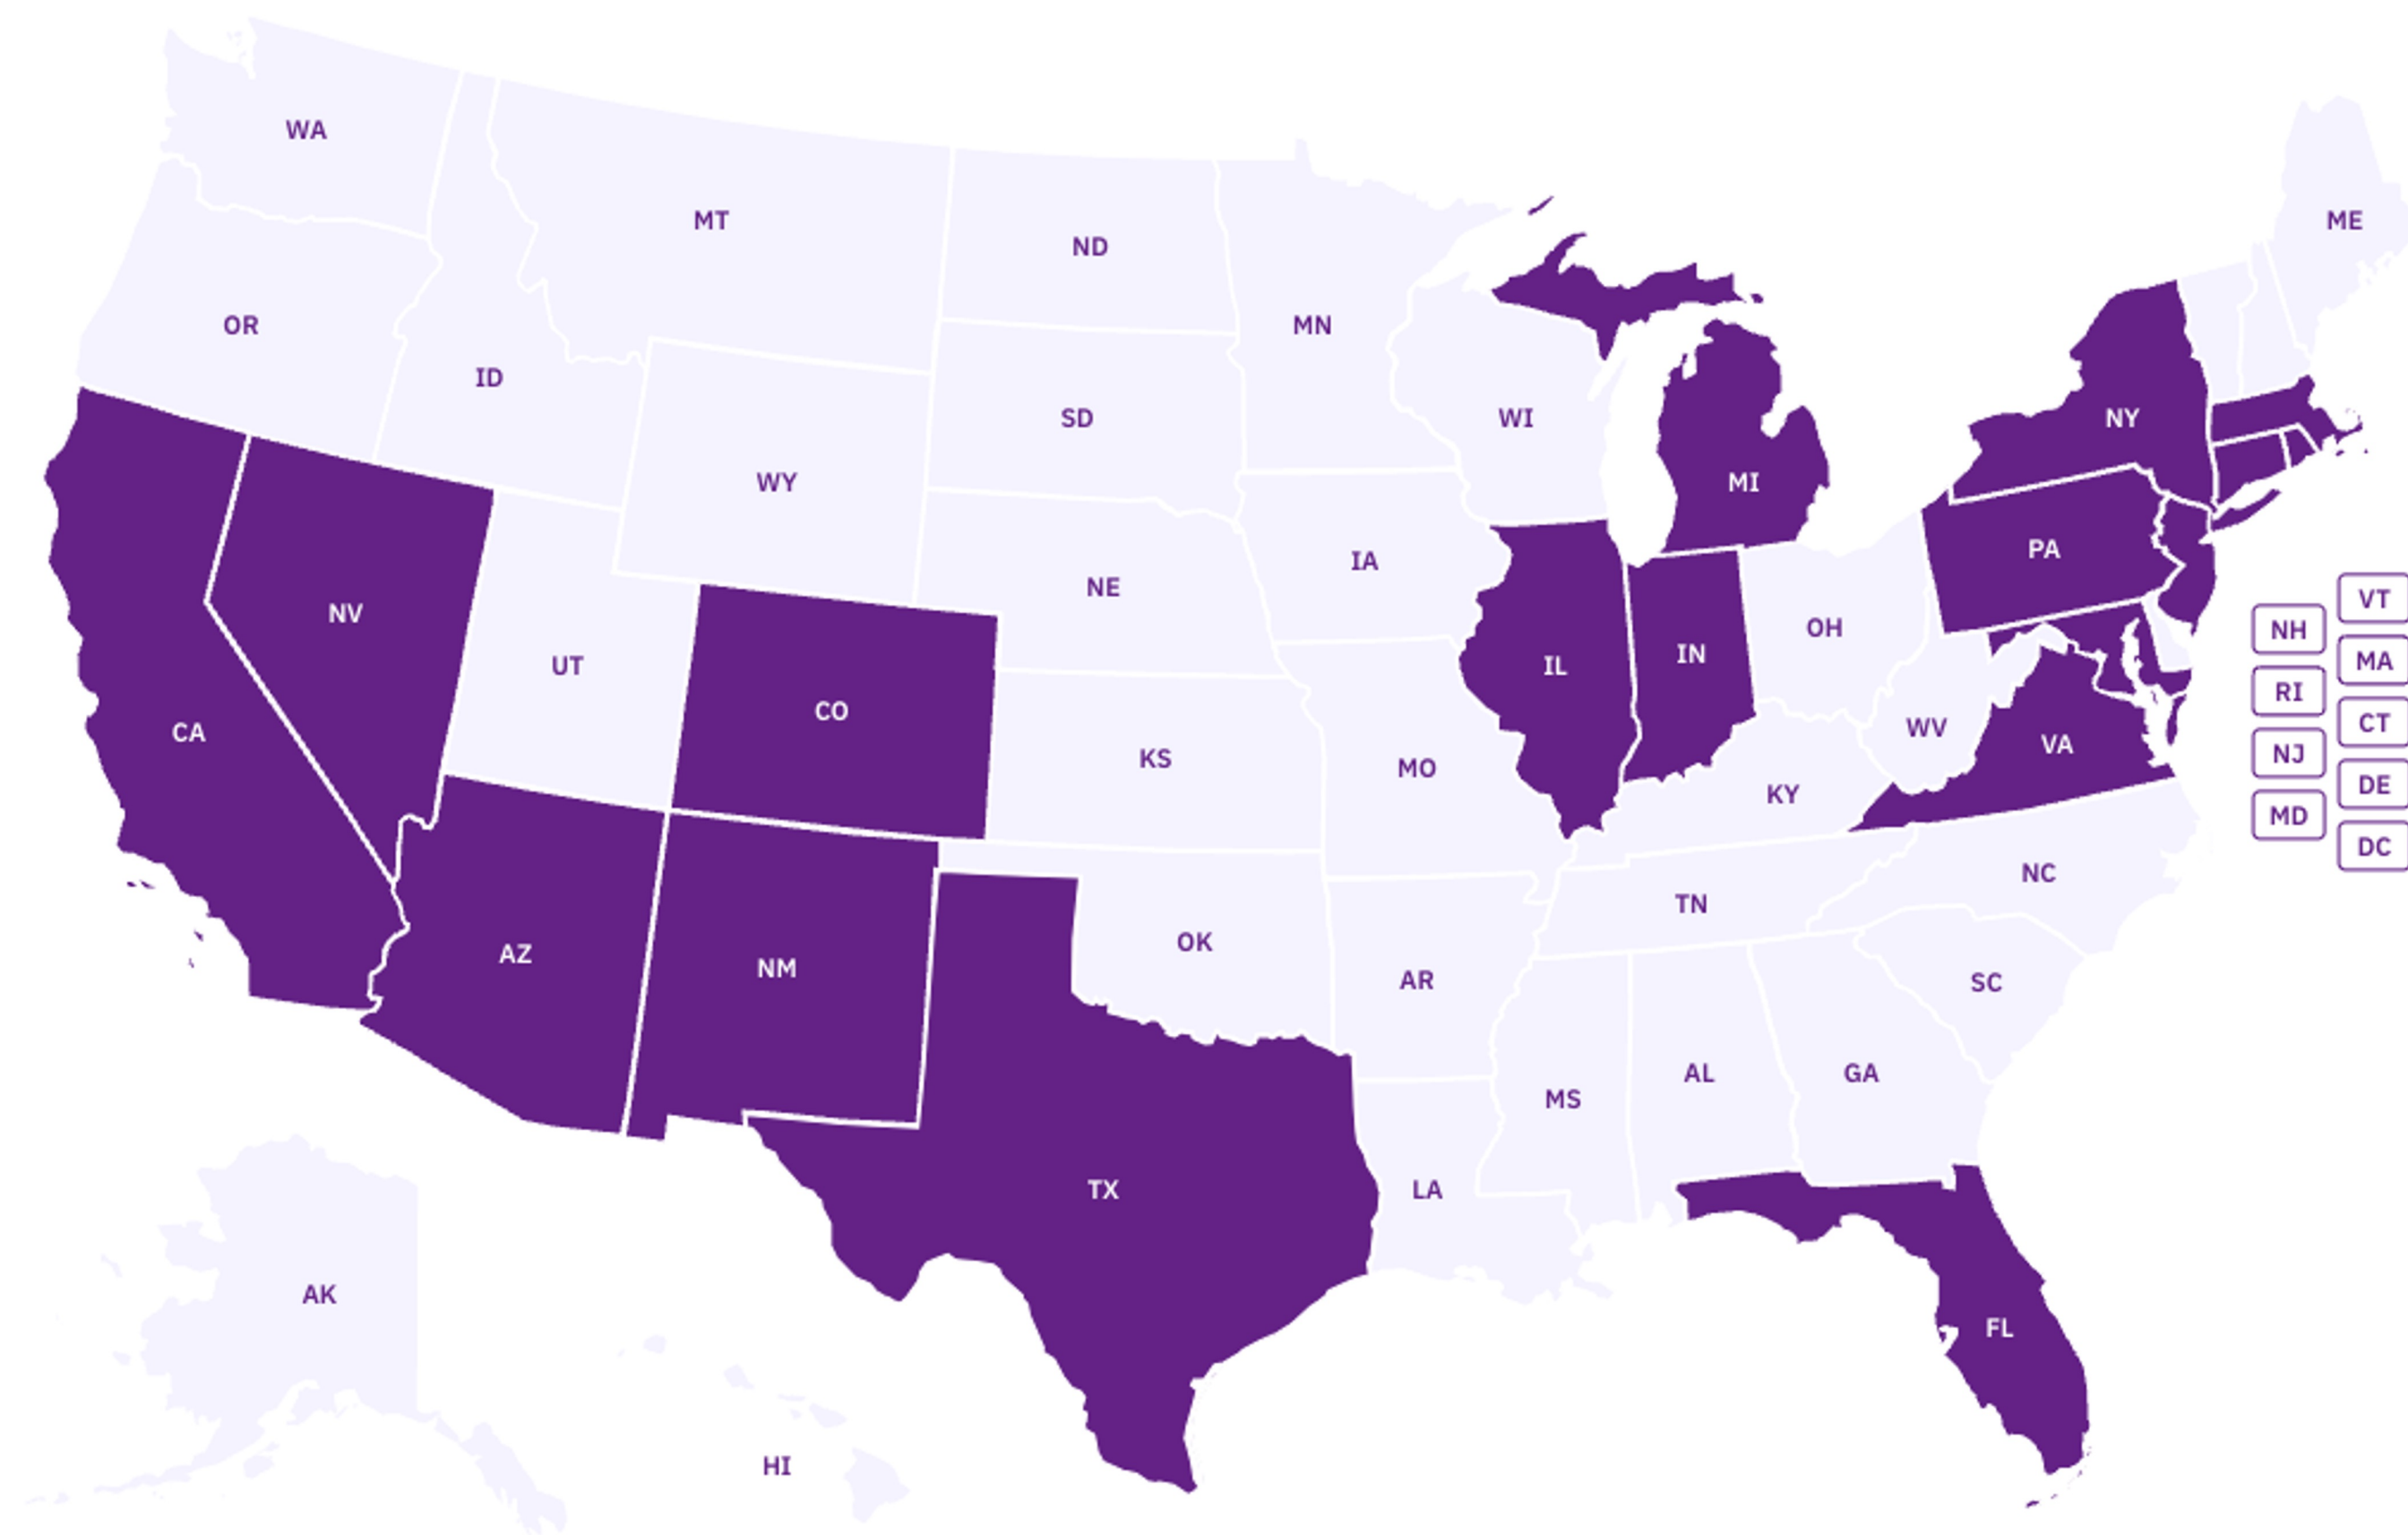

We provide:

- ✓ **Credible research and analysis** about the advanced energy industry
- ✓ **Knowledge about technologies** and services available to consumers and the power grid
- ✓ **Policies and regulations** that drive the transition to 100% clean energy in the power sector, the built environment, and in transportation.

Where We Work

Regulatory, legislative, and gubernatorial engagement in 18+ states.

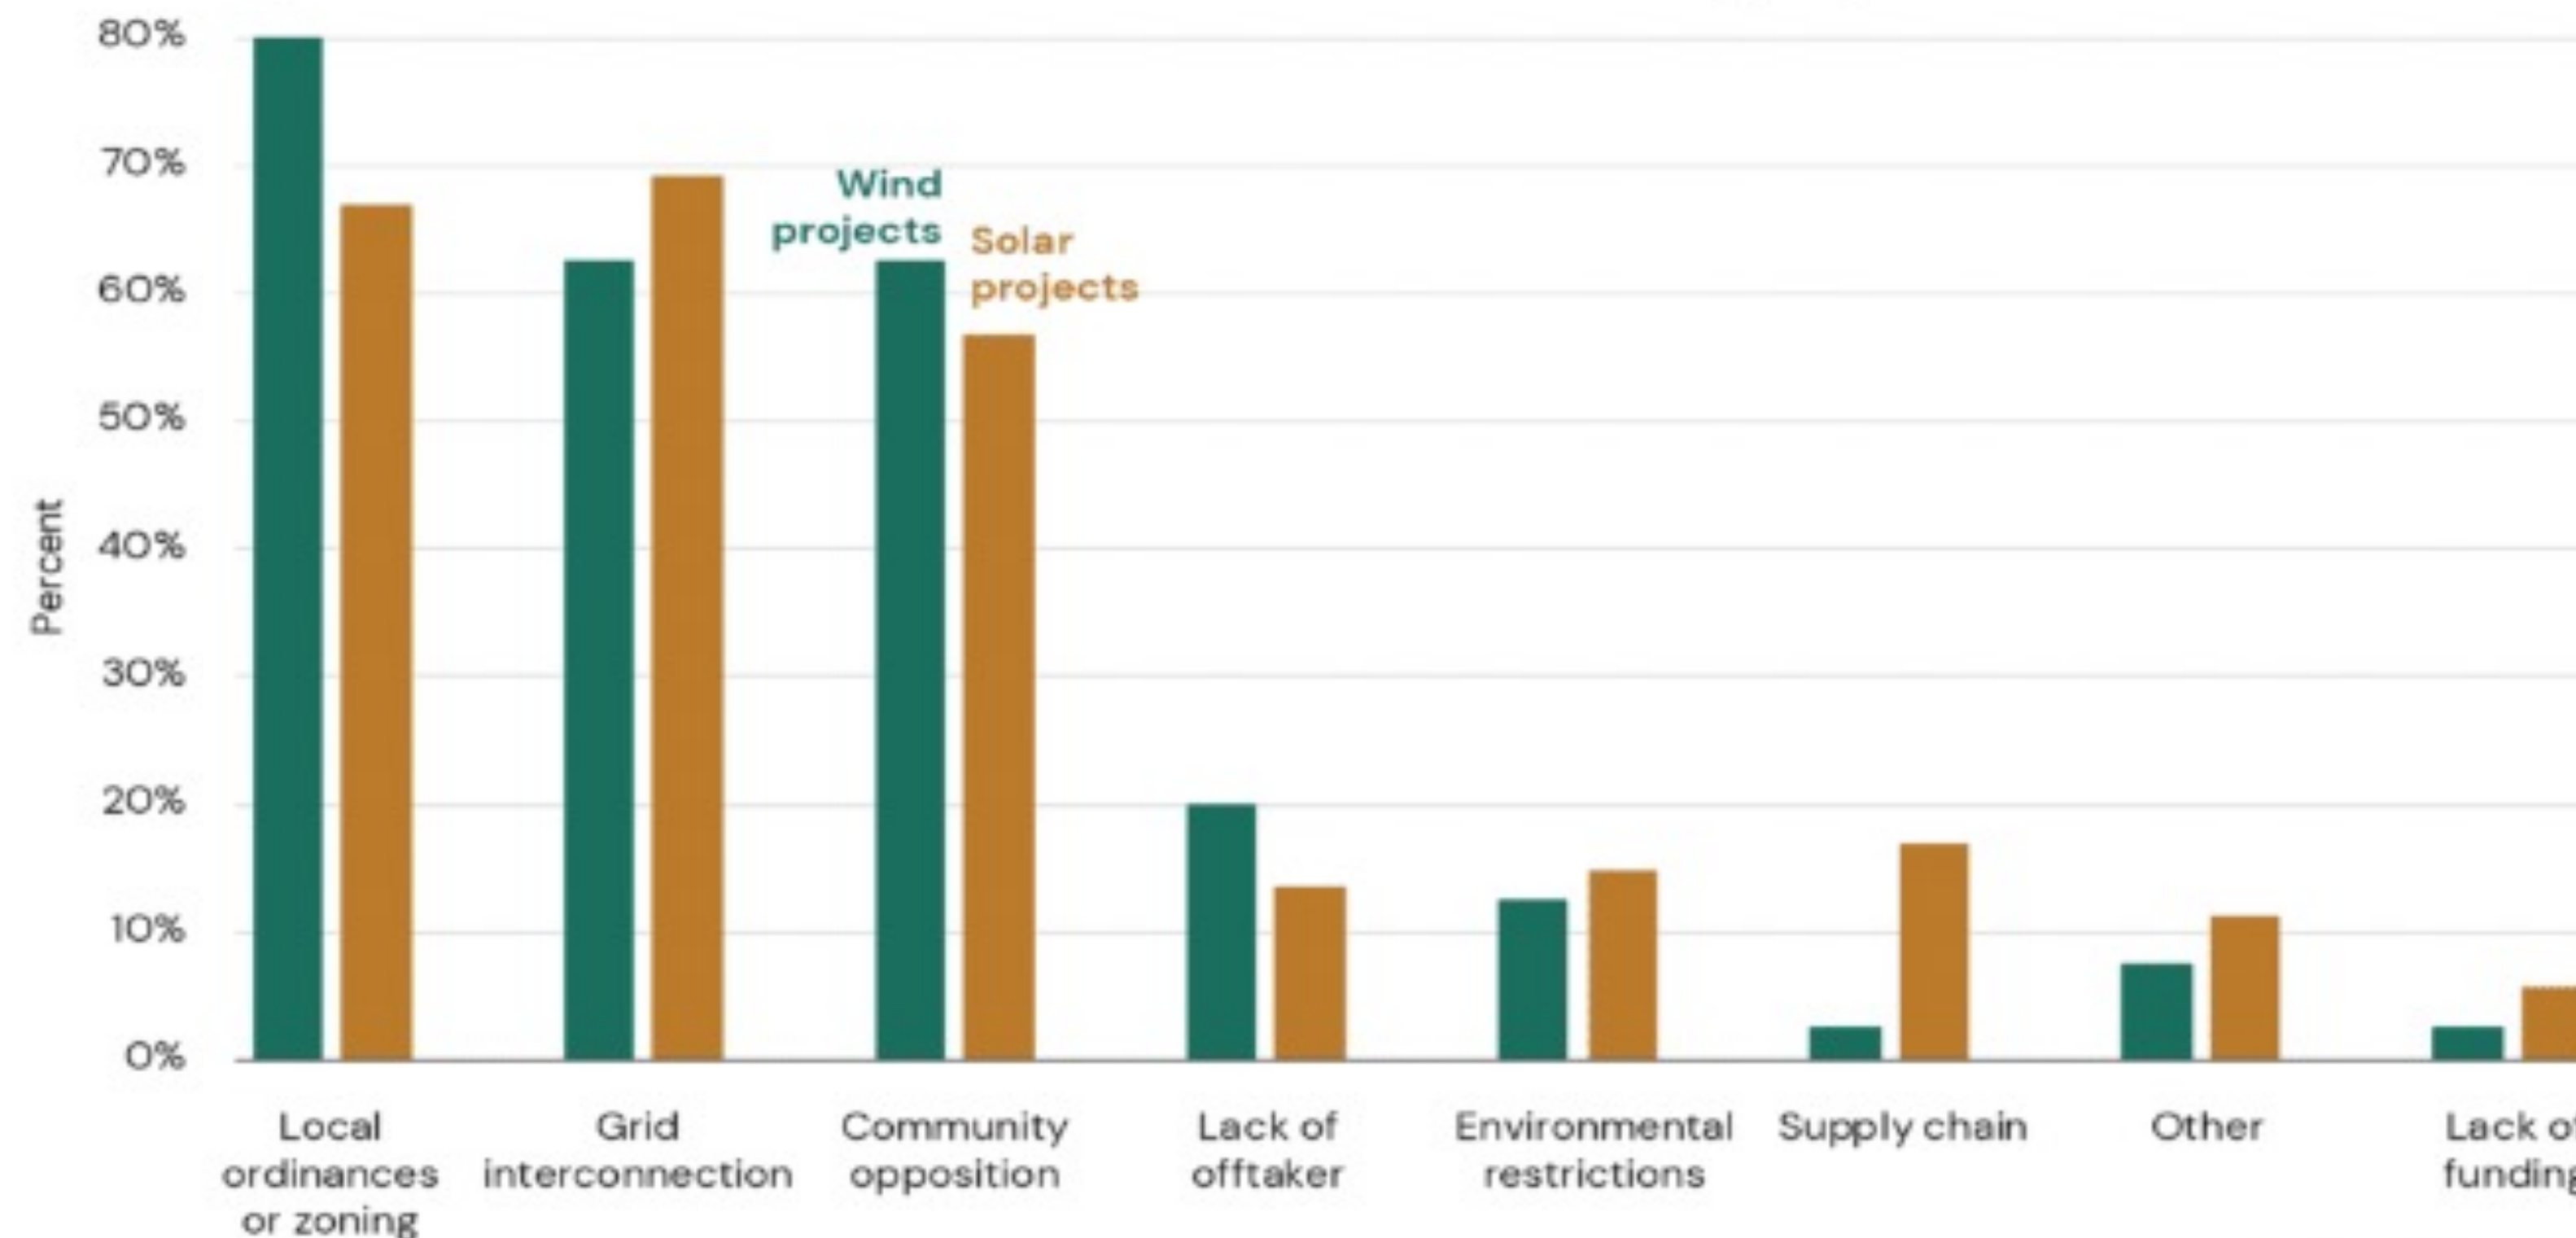

Energy market advocacy at Federal Energy Regulatory Commission (FERC) and Regional Transmission Organizations (RTOs) / Independent System Operators (ISOs)

Policy engagement with Congress and federal agencies relating to infrastructure investments and manufacturing

Where are the Development Headwinds?

Leading causes of cancellation for wind and solar projects, 2016–23

Source: Nilson, Hoen, and Rand 2023, p. 11.

Note: The sample consists of responses from 123 industry professionals from 62 companies, together responsible for about half of wind and solar capacity from 2016 to 2023. There are 88 solar projects and 44 wind projects. Respondents reported the top three reasons that a project was cancelled.

THE HAMILTON PROJECT

BROOKINGS

Permitting & Siting Principles

(Near-Final Draft)

- *Cut red tape and streamline*
- *Establish clear and enforceable timelines*
- *Clarify and consolidate the appeals process*
- *Explore options for taxes and local incentives*
- *Consider community benefit agreements*
- *Promote industry standard for decommissioning*

Thank you.
